This suits you if

You want a peak climb at your own pace

You're visiting the Scenic Rim and want the best places found for you

You want a trip planned around your requirements

Probably not for you if

You want a fixed date on the program instead

Meeting point and getting there

Meet: Boonah and the Fassifern

1 hour drive from Brisbane

Nearest airport: Brisbane airport

7 Church Street, Boonah QLD 4310

Questions

How long does a peak climb take?

From less than half a day on Mt Edwards to most of a day on Mt Maroon, or a full and challenging 12 to 14 hours on Mt Barney.

When is the best time?

Usually April to October, with June and July particularly fine: chilly mornings and clear days of 18 to 25 degrees. In summer, December to February, days can reach 42 degrees, so walks go to creeks where you can cool off in rock pools during the heat of the day.

What does it cost?

Private guiding is quoted for your walk. Get in touch with the walk you have in mind, your group size and dates.

How to book

Send a request to book from the Private guiding page and Teresa will confirm within 24 hours.
