

Top End Family Walk No. 1

Trek through a wilderness where no vehicle can ever go

Kakadu and Litchfield at a slower pace so that families with children can enjoy the bush. Three short walks with two night base camps, swims at every camp, and a night at a holiday park with wild bird feeding. Two school holiday dates; whichever books first runs.

Fitness and who it suits

Hot and humid with an average maximum of 33 to 34 degrees, though humidity drops between March and May. Rain is unlikely but possible, so bring a tent or mosquito net with a fly. Some slow sections through thick scrub and some stepping from stone to stone along creek edges.

Grade: Fairly easy. Level 2 overall. One of the easiest trips offered in Kakadu, with two more days than a normal group would take. Hot and humid, level 3 to 4 for climate.

This suits you if

- Your children can carry a light pack of 8 to 12 kg or less
- You want the pace set by the family not the guide
- Everyone likes swimming

Probably not for you if

- You want a hard walk
- You cannot carry a pack at all
